Don't have the skills? Don't have the time? But you'd love to have a Wedding Quilt created for that special Bride and Groom? Let Little Red Quilt House handle the entire project for you. Our fully managed project service can be summed up in four words.

We Do It All!!

Your wedding quilt is assigned to one of our professional project managers who will take your quilt project from concept to finished product. Special features of our managed project service include:

- Custom Pattern Design
- Custom Color Coordination
- Private Web Viewing Directory
- LRQH's Exclusive "Quilt Map"

Contact us today for details about this service that gets the job done fast, professionally and stress free!

Managed Wedding Quilt Project

Private Web Directory

Our Managed Wedding Quilt Project service also includes a private directory on our web servers into which we will scan all contributor blocks for viewing. This is also the location where the layout and design of the quilt will be organized and updated as it happens! This allows everyone to watch the progress of the project, building to the thrill of the day when the finished quilt is unveiled. This feature of our service makes your Wedding Quilt Project a truly fun and communal family activity adding to the unique excitement of the Wedding Day event.

Our Exclusive Quilt Map Feature

Available exclusively for LRQH Managed Projects, our Quilt Map turns your Wedding Quilt into both an heirloom and historical document. The Quilt Map is an 11" x 13" framed color portrait of your Wedding Quilt including information about each contributed block. This info includes:

- Contributor Name and Address
- Contributor Relationship
- Block Description
 - Block Name
 - Creation Methodology
- Message From Contributor

Like your wedding pictures, the Quilt Map becomes an additional record of your wedding day and is an additional historic and genealogic reference to the event. The Quilt Map is included as part of the LRQH Managed Wedding Quilt Project Service.
